Data provided by the U.S. Department of Transportation agencies, the U.S. Army Corps of Engineers, and the National Park Service, and are current as of 1998. Major airports are those that reported more than 250,000 enplanements in 1996. Major ports are those that handled more than 1 million tons of freight in 1995. Urban area with rail transit denotes urban areas with heavy (or light) rail transit.
