

Structurally Deficient Bridges on the National Highway System Puerto Rico

**Consult your state DOT
 for the most up-to-date
 status of bridges.**

Note: The bridges displayed on this map represent the results of a combined BTS/FHWA effort to geocode bridges from the FHWA's National Bridge Inventory (NBI). All data is from the 2010 NBI. Of the 60 structurally deficient NHS bridges in Puerto Rico, 0 could not be geolocated because of insufficient data. Structurally deficient bridges are not necessarily unsafe; all public road bridges receive regular safety inspections. The bridges listed were categorized as structurally deficient at the time the maps were developed.
