

## 2021 Federal Excise Tax - Rural Airports

October 12, 2021

This information has been prepared for the IRS by the Office of the Secretary of the Department of Transportation, Research Division (OST-R).

This list was prepared on 2021 data provided by the FAA and is based on 2019 enplanement statistics.

Airport distances are calculated from a start and end latitude and longitude based on a constant compass course for a rhumb line between the points (loxodrome) using an Albers Equal Area Projection.

Airport coordinates are based on FAA and National Imagery and Mapping Agency Data.

If an airport does not appear on the list, and an airport administrator has information that may render an eligible, please send an email to:

[RuralAirportsEligibilityInquiries-OAI@dot.gov](mailto:RuralAirportsEligibilityInquiries-OAI@dot.gov)

Please include in email:

- Airport(s) in question
- Reasons why the Airport(s) should be considered 'Eligible'.
  - Feel free to include the IRS Conditions and appropriate justification, passenger traffic numbers for the second preceding year, pictures of non-paved roads with street names and cross-street names, names of island airports
- The email sender's contact information

| FAA Code | IATA Co | AIRPORT                 | CITY           | STATE  | COUNTRY |
