COMPLETE INDEX (for Vols. 1–7)

A

Accessibility
and road construction, Vol. 5(1):26
business productivity, Vol. 1(3):69–76
definition of, Vol. 4(2/3):16
demarcation area, Vol. 4(2/3):37
European context, Vol. 4(2/3):38–40
indicators
travel-cost approach, Vol. 4(2/3):33
utility-based surplus approach, Vol. 4(2/3):35
and labor markets, Vol. 4(2/3):54–57, 63–64
measurement of attraction masses, Vol. 4(2/3):37
measurement of spatial separation, Vol. 4(2/3):36–37
path-based accessibility, Vol. 4(2/3):79–90
unimodality and multimodality, Vol. 4(2/3):37

Accidents. See also Crashes, Safety
air transportation, Vol. 2(1):79, 85
costs, Vol. 4(1):87–90, 99–100
free incidents, travel time, Vol. 2(2):123–131
hazardous materials shipments by rail, Vol. 3(1):81–92
high-risk sites, Vol. 1(1):75–91
increased speed limits, Vol. 4(1):1–26
traffic, Vol. 7(2/3):13–26

Advanced Traveler Information Systems, Vol. 7(2/3):53–70
AFV. See Alternative fuel vehicles

Age. See also Demographic factors
as a determinant of truck accidents, Vol. 3(1):69–73
commuting, Vol. 2(1):104
in relation to highway safety, Vol. 6(2/3):51–65
Agglomeration effects (accessibility modeling), Vol. 4(2/3):37–38
Aggregation/disaggregation of data
freight demand and mode choice, Vol. 2(2):149–58
investment, macroeconomic analyses, Vol. 1(3):65–79
motor vehicle emissions, Vol. 3(2):25
motor vehicle license fees, Vol. 2(2):139
travel demand, country comparisons, Vol. 3(3):1–31
truck trips, statewide, Vol. 3(1):53
urban passenger transport, Vol. 1(1):44
value of time data, Vol. 5(2/3):57–72

AIC. See Akaike’s Information Criterion
Air pollution, Vol. 3(2):1–102
air quality assessment, Vol. 3(2):85–101
air quality planning, local roads, Vol. 6(1):59–69
appearance transportation, Vol. 2(1):79–80, 85–86
analysis of covariance model, Vol. 3(2):49–64
chase car data, Vol. 3(2):15–28
costs from highway transportation, Vol. 4(1):91–92, 100
mobile source emissions forecasting, Vol. 6(1):17–32
trips, relationship to value of time data, Vol. 5(2/3):2–72
and unregistered motor vehicles, Vol. 7(2/3):1–12
airline
flight delay and cancellation analysis, Vol. 7(1):74–84
low-cost carriers, Vol. 7(1):88–101
regional carriers, Vol. 7(1):88–101
traffic, Vol. 7(1):69–85
networks, Vol. 7(1):87–101
Air Travel Price Index, Vol. 7(2/3):41–52
econometric forecasts, Vol. 7(1):7–21
infrastructure needs, Vol. 2(1):78–79, 84–85
international freight, Vol. 7(2/3):93–97
policy formation, Vol. 2(1):74–76, 81–82
productivity analysis, Vol. 2(1):77–78, 83–84
safety, Vol. 2(1):79, 85
use in cost analysis, Vol. 2(1):77–78, 83–84
use in demand forecasting, Vol. 2(1):76–77, 83–84
use in environmental analysis, Vol. 2(1):79–80, 85–86
Akaike’s Information Criterion (AIC), Vol. 7(1):3
Alabama
time-use behavior model, Vol. 5(1):39
costs flows, Vol. 1(1):69, 72
Alternative and replacement fuels, Vol. 3(2):50–61
Alternative fuel vehicles (AFV) emissions, Vol. 3(2):50, 57–61
urban transportation, Vol. 3(1):35
American Travel Survey, Vol. 5(2/3):84
Analysis of covariance (ANCOVA)
motor vehicle emissions, Vol. 3(2):49–64
Analysis of variance (ANOVA), Vol. 2(2):49–63
motor vehicle emissions, Vol. 3(2):24
roadway inventory data collection, Vol. 3(3):36–42
Atlanta, Georgia, parking, Vol. 2(1):93–107
ARIMA. See Box-Jenkins ARIMA time series
Arizona
time-use behavior model, Vol. 5(1):39
costs flows, Vol. 1(1):69, 72
Arkansas
time-use behavior model, Vol. 5(1):39
costs flows, Vol. 1(1):69, 72
Australia
- crash statistics, Vol. 2(2):159–166
- freight travel time, Vol. 3(3):83–89
- modeling transportation in urban areas, Vol. 3(1):31–52
- travel demand, Vol. 3(3):1–31
Austria
- crash statistics, Vol. 2(2):159–166
Automatic vehicle identification, Vol. 7(2/3):53–70
Aviation. See Air transportation

B
Bayesian
- generalized cross validation, Vol. 7(2/3):56–70
- natural cubic splines, Vol. 7(2/3):54–70
- network model, Vol. 7(2/3):13–26
- smoothing splines, Vol. 7(2/3):53–70
Bayesian Information Criterion (BIC), Vol. 7(1):3
Belgium
- crash statistics, Vol. 2(2):159–166
- travel demand, Vol. 3(3):7
BIC. See Bayesian Information Criterion
Border crossings
- economics, Vol. 7(1):7–21
- forecast accuracy, Vol. 7(1):7–21
- international freight gateways, Vol. 7(2/3):93–97
Bootstrap methods
- validation of motor vehicle emissions, Vol. 3(2):29–36
Box-Jenkins ARIMA time series, Vol. 4(1):13–15
Bridge improvements, Vol. 1(3):65–78
Bridges
- traffic
- counting, Vol. 6(1):61
- international crossings, Vol. 7(1):7–21
Buses, Vol. 1(2):4, 7, 11; Vol. 4(2/3):79–90. See also Public transportation
- noise pollution, Vol. 1(3):10–11

C
California
- commodity inflows, Vol. 7(1):36
- highway crashes and older drivers, Vol. 6(2/3):51–65
Port of Los Angeles, international freight, Vol. 7(2/3):93–97
San Diego, increased roadway capacity, Vol. 5(1):27
San Francisco, increased roadway capacity, Vol. 5(1):27
San Francisco Bay Area Rapid Transit
- customer satisfaction among riders, Vol. 4(2/3):71
- unregistration rates of on-road vehicles, Vol. 7(2/3):1–12
Canada
- crash statistics, Vol. 2(2):159–166
Capital investment in highways
- environmental regulation and, Vol. 2(1):45–60
Carbon dioxide
- air transportation, Vol. 2(1):80
Carbon monoxide
Cargo
- containerized, Vol. 6(1):71–86
- international, U.S./Mexico, Vol. 7(1):7–21
- train waybill data models and statistics, Vol. 4(1):75–79
Cars. See Motor vehicles, Passenger cars
CFS. See Commodity Flow Survey
Chase car data
- measuring vehicle emissions, Vol. 3(2):15–28
- potential inaccuracy, Vol. 3(2):17–18
China, containerized cargo, Vol. 6(1):71–86
Clean Air Act emissions standards, Vol. 3(2):2–3, 5
Climate change
- air transportation, Vol. 2(1):79–80
- motor vehicle emissions, Vol. 3(2):v
Cluster analysis, land-use and transportation sketch planning, Vol. 4(1):39–49
Colorado
- truck flows, Vol. 1(1):69, 72
Commodities
  Vol. 3(1):53–66
- transportation as, Vol. 3(1):15–29

2
demographics of, Vol. 2(1):93–107
transit strikes, Vol. 1(3):43–51
time, costs of freeway incidents, Vol. 2(2):123–130
survey, Northridge, California, earthquake, Vol. 1(2):
13–15, 31–33

Commuting
impact of Northridge earthquake, Vol. 1(2):1–4, 8–19,
31–35, 50–51, 59–61
time spent, Vol. 5(1):25–45

Congestion. See Traffic congestion
Connecticut
time-use behavior model, Vol. 5(1):39
truck flows, Vol. 1(1):67, 69, 72

Containerized cargo, Vol. 6(1):71–86

Content analysis, Vol. 1(2):65–73
Contextual stated preference methods, freight travel time
and reliability, Vol. 3(3):83–89

Correlation
multiple serial correlation, transit investment, Vol.
2(2):113–121

Costs/cost-benefit analyses
accidents, Vol. 4(1):87–90
air transport statistics, Vol. 2(1):77–78, 83–84
disabled persons, rural vouchers, Vol. 2(1):68
environmental costs
air pollution, Vol. 4(1):91–92
impact on road construction, Vol. 2(1):45–60
freeway incidents, travel time, Vol. 2(2):123–131
freight travel time, Vol. 3(3):83–89
highway construction, Vol. 2(1):45–60
impact of Northridge earthquake on trucking, Vol.
1(2):37–48
motor vehicle license fees, Vol. 2(2):133–147
Northridge earthquake, Vol. 1(2):15–18, 19, 21, 37,
40, 44–46
parking pricing, Vol. 2(1):100–106
public transit, Vol. 2(2):113–121
social costs of motor vehicle use, Vol. 1(1):15–42
transit, multiple serial correlation, Vol. 2(2):113–121
vehicle operating costs, 86–87

Covariance matrix, and travel time budgets, Vol. 5(1):35

Crashes, Vol. 2(1):19–43. See also Accidents, Safety
annual mileage as determinant of truck accidents, Vol.
3(1):69, 71, 74
and demographics, Vol. 7(2/3):13–26
fatalities, Vol. 2(2):159–166; Vol. 7(2/3):13–26
economic costs of motor vehicle crashes, Vol. 2(1):23–32,
36–43
effect of alcohol, Vol. 6(2/3):51–65
51; Vol. 6(2/3):51–65

international statistics, Vol. 2(2):159–166
at intersections, Vol. 7(2/3):27–39
older drivers, Vol. 6(2/3):51–65
road characteristics in, Vol. 7(2/3):13–26
and speed, Vol. 7(2/3):13–26

CTPP. See Census Transportation Planning Package
Cuidad Juárez, Mexico, border economics, Vol. 7(1):7–21

D
Dallas–Fort Worth, TX, Vol. 6(1):17–32
Delaware, truck flows, Vol. 1(1):69, 71, 72
Demand
derived, Vol. 5(1):26
forecasting using air transport statistics, Vol. 2(1):76–
77, 82–83

Demographic factors. See also Age
ascent, Vol. 7(2/3):13–26
determinants of trucking safety, Vol. 3(1):69–79
disabled persons, rural vouchers, Vol. 2(1):61–70
employee demographics in relation to parking, Vol.
2(1):98, 104–105
equity in motor vehicle license fees, Vol. 2(2):133–147
motor vehicle ownership, Vol. 2(1):6–16
race as determinant of truck crashes, Vol. 3(1):69, 71–72
Denmark, crash statistics, Vol. 2(2):159–166
DIRECTIONS Travel Intelligence System, Vol. 5(2/3):85, 89
Disabled persons
disabled persons, rural vouchers, Vol. 2(1):61–69

Disaggregation. See Aggregation/disaggregation
Disasters
planning by trucking companies, Vol. 1(2):37–48
District of Columbia. See Washington, DC

Driver behavior and traffic flow, Vol. 5(1):3, 23
Driver experience as determinant of truck accidents, Vol.
3(1):69, 71, 73–74

E
Econometric analyses, Vol. 3(1):1–14
airline networks, Vol. 7(1):87–101
forecasting, Vol. 7(1):7–21, 87–101
highway safety and older drivers, Vol. 6(2/3):51–65
modeling impacts of bypasses on communities, Vol.
5(1):59
regional, Vol. 7(1):7–21
Economic factors. See also Capital investment in highways,
Costs/cost-benefit analysis, Demand, Employment,
Gross Domestic Product
costs of traffic congestion, Vol. 2(2):123–130
efficiency of European railways, Vol. 3(3):61–67
equity of vehicle license fees by household location, Vol. 2(2):140–143
equity of vehicle license fees by income, Vol. 2(2):135–140
impacts of bypasses on communities, Vol. 5(1):57–69
induced travel demand, Vol. 3(1):1–14
macroeconomic analysis of transportation investments, Vol. 1(3):43–51
motor vehicles
license fees, Vol. 2(2):133–147
social costs of owning, Vol. 1(1):15–42
price elasticities, Vol. 7(1):40
transportation in the Canadian economy, Vol. 6(2/3):29–49
Transportation Output Index, Vol. 6(2/3):1–27
Transportation Satellite Accounts, Vol. 5(2/3):1–18
urban transportation, Vol. 3(1):31–52
value of travel time, Vol. 2(2):123–130
Efficiency measures, European railways, Vol. 3(3):61–68
Elasticity
demand on tolled motorways, Vol. 6(2/3):91–108
parking prices, Vol. 2(1):1–3
price
airline, Vol. 7(1):96
public transportation in Spain, Vol. 7(1):40
El Paso, Texas, border economics, Vol. 7(1):7–21
EMFAC (Emission FACtor) model, Vol. 7(2/3):2–4
Emissions control. See Air pollution, Environment
Employment
and accessibility improvements, Vol. 4(2/3):49–66
and parking, Vol. 2(1):93–106
Northridge earthquake, Vol. 1(2):21, 23–33
Environment. See also Air pollution
air transportation, Vol. 2(1):79–80, 85–86
highway construction costs and regulation, Vol. 2(1):45–60
impact of environmental protection measures on road construction costs, Vol. 2(1):45–60
policy and regulations, Vol. 2(1):45–59
Europe
air transportation statistics, Vol. 2(1):71–92
international crash statistics, Vol. 2(2):159–166
railways, efficiency/output, Vol. 3(3):61–68
travel demand, Vol. 3(3):1–31
European Community, crash statistics, Vol. 2(2):159–166
European Road Safety Charter, Vol. 7(1):62
Exports, transportation of, Vol. 7(2/3):93–97
Extreme values, Vol. 7(2/3):41–52
F
FARS. See Fatality Analysis Reporting System
Fatalities
hazardous material shipments, Vol. 3(1):83–85
international accident statistics, Vol. 2(2):159–166
rail, Vol. 3(1):85–86
trucking, Vol. 3(1):70, 83–85, 87–89
Fatality Analysis Reporting System (FARS), Vol. 4(1):3
Federal-aid highways, impact of environmental protection statutes on costs, Vol. 2(1):45–60
Federal Test Procedure (emissions testing), Vol. 3(2):2, 16–17, 39–47, 57–58
Finland
crash statistics, Vol. 2(2):159–166
elasticity studies of public transport, Vol. 1(1):1, 7, 10–12 (passim)
Florida
highway speeds, Vol. 7(2/3):71–86
measuring vehicle travel by visitors, Vol. 5(2/3):83–90
time-use behavior model, Vol. 5(1):39
truck flows, Vol. 1(1):67, 69, 72
Forecasting
accuracy, Vol. 7(1):51–57
air transportation supply and demand, Vol. 2(1):76–77, 82–83
Akaike’s Information Criterion (AIC), Vol. 7(1):3
Bayesian Information Criterion (BIC), Vol. 7(1):3
borderplex econometric forecasting, Vol. 7(1):7–21
construction of highway links, Vol. 6(2/3):81–89
definitions
accuracy, Vol. 7(1):3
calendar effects, Vol. 7(1):2
ex-ante forecasts, Vol. 7(1):3
ex-post forecasts, Vol. 7(1):3
fit, Vol. 7(1):3
hold-out samples, Vol. 7(1):2
information criteria, Vol. 7(1):3
Theil’s U, Vol. 7(1):3
econometric, Vol. 7(1):7–21
freight weight and value flows, Vol. 6(2/3):67–80
highway, Vol. 7(1):61–68
mobile source emissions, Vol. 6(1):17–32
road safety forecasting, Vol. 7(1):61–68
urban demand, Vol. 1(3):26–28, 37
Foreign countries. See specific country
France
freight demand and mode choice, Vol. 2(2):149–158
transit strikes, Vol. 1(3):43–51
travel demand, Vol. 3(3):1–31
Freeways. See Highways
Freight. See also Commodity Flow Survey, Trucks
comparison of long-haul and metropolitan trucking, Vol. 3(3):83–89
crossing borders, Vol. 7(2/3):93–97
econometric forecasting, Vol. 7(1):7–21
estimating weight and value flows, Vol. 6(2/3):67–80
flows, Vol. 7(1):23–37
planning, Vol. 7(1):23–37
rail, Vol. 4(1):75–79
shipper surveys, Vol. 3(3):83–89
Transportation Output Index, Vol. 6(2/3):1–27

G
Gasoline
emissions reductions, Vol. 3(2):7, 29–30
reformulated gasoline (RFG), Vol. 3(2):57–58
Geographic information systems (GIS), Vol. 6(1):59–69
used for evaluating neighborhood accessibility, Vol. 4(2/3):17, 29, 37, 38, 75–77
Georgia
Atlanta, parking, Vol. 2(1):93–107
time-use behavior model, Vol. 5(1):39
truck flows, Vol. 1(1):69, 72
Ghana, travel demand, Vol. 3(3):1–31
Gibbs sampler, Vol. 7(2/3):59–70
GIS. See Geographic information systems
Great Britain
Planning Policy Guidance, Vol. 4(2/3):76
road safety forecasting, Vol. 7(1):61–68
travel demand, Vol. 3(3):1–31
Greece, crash statistics, Vol. 2(1):45–60
Government revenues, vehicle license fees, Vol. 2(2):133–147
Greenhouse gases. See Climate change
Gross Domestic Product
transportation driven, Vol. 3(1):25–28
transportation related, Vol. 3(1):21–24
H
Handicapped persons. See Disabled persons
Hazardous materials, rail and truck shipment, Vol. 3(1):81–92

High-speed rail, value of time, Vol. 5(2/3):57–72
Highway Performance Monitoring System (HPMS), Vol. 6(1):60, 68
Highways
capacity, Vol. 5(1):25–45
congestion and delays, Vol. 2(2):123–130
construction of new links, Vol. 6(2/3):81–89
detours due to earthquake damage, Vol. 1(2):1–20
environmental regulation and costs, Vol. 2(1):45–60
impacts of bypasses on communities, Vol. 5(1):57–69
improvements, Vol. 1(3):65–79
induced travel demand, Vol. 3(1):1–14
inventory, Vol. 3(3):33–45
road construction and environmental statutes, Vol. 2(1):45–60
rural interstate, Vol. 7(2/3):71–86
speed limits, effect on number of fatal accidents, Vol. 4(1):1–26
trips, relationship to value of time data, Vol. 5(2/3):58–72
transportation costs, Vol. 4(1):81–103
HPMS. See Highway Performance Monitoring System

I
Idaho, truck flows, Vol. 1(1):69, 72
Illinois
commodity inflows, Vol. 7(1):35
time-use behavior model, Vol. 5(1):39
truck flows, Vol. 1(1):69, 72
Imports, transportation of, Vol. 7(2/3):93–97
Income, and equity of vehicle license fees, Vol. 2(2):133–147
Indexes
Air Travel Price Index, Vol. 7(2/3):41–52
extreme values, Vol. 7(2/3):41–52
Fisher index, Vol. 7(2/3):41–52
Laspeyres index, Vol. 7(2/3):43–52
Paasche index, Vol. 7(2/3):43–52
Taylor series, Vol. 7(2/3):41–52
Törnqvist index, Vol. 7(2/3):41–52
India, travel demand, Vol. 3(3):1–31
Indiana
time-use behavior model, Vol. 5(1):39
truck flows, Vol. 1(1):69, 72
Infrastructure
highway, Vol. 4(1):90–91, 100
funding improvements, Vol. 5(2):83
improvements and safety, Vol. 3(1):81, 83, 90–91
port, Vol. 6(1):71–86
predicting construction of highway links, Vol. 6(2/3):81–89
use of air transport statistics, Vol. 2(1):78–79, 84–85

Injuries
hazardous materials, Vol. 3(1):85–86
international accident statistics, Vol. 2(2):159–166
input-output coefficient, Vol. 3(1):53–66
Intermodal transportation, mode choice, Vol. 2(2):149–158
International perspectives, See also Europe, specific countries
- crash statistics, Vol. 2(2):159–166
- motor vehicle noise, Vol. 1(3):9
- travel demand, country comparisons, Vol. 3(3):1–31
- urban congestion, air pollution, Vol. 3(2):85–102

Vehicle-miles of travel (VMT), Vol. 3(1):1–14

- general, Vol. 3(1):74–75, 78
- hazardous materials, Vol. 3(1):87
- households and businesses, Vol. 5(2/3):1–18
- Mid-Atlantic, Vol. 3(1):1–14
- light trucks and passenger cars, Vol. 3(3):47–60
- measuring vehicle travel by visitors, Vol. 5(2/3):83–90
- models, Vol. 3(3):50–51
- motor vehicle ownership and use, 11, 17, Vol. 2(1):3–7
- noise, Vol. 1(3):5–6, 19
- railways, European, efficiency/output, Vol. 3(3):61–68
- social costs, Vol. 1(1):19, 27
- speed and speed limits, Vol. 3(3):69–81
- travel demand, Vol. 3(3):1–31 (passim)
- truck accidents on freeway ramps, Vol. 1(1):76, 77, 80, 83, 84–88
- truck traffic estimates, Vol. 1(3):90

Vehicle occupancy models, Vol. 3(3):53–54

Vehicle ownership

- equity of vehicle license fees by income, Vol. 2(2):135–140
- equity of vehicle license fees by location, Vol. 2(2):140–143
- light trucks and passenger cars, Vol. 3(3):47–60
- models, Vol. 3(3):57–59

Virginia

- study of road capacity and VMT, Vol. 5(1):28
- truck flows, Vol. 1(1):69, 72

VMT. See Vehicle-miles of travel

W

Washington (state)

- commodity inflows, Vol. 7(1):37
Washington, DC
study of road capacity and VMT, Vol. 5(1):28
truck accidents on freeway ramps, 75–92
truck flows, Vol. 1(1):64, 69, 72
Water pollution, motor vehicle use, Vol. 1(1):26, 30, 36, 37, 38
Water transportation
containerized cargo, Vol. 6(1):71–86
international freight, Vol. 7(2/3):93–97
vessel types, Vol. 7(2/3):97
West Germany, travel demand, Vol. 3(3):1–31
West Virginia, truck flows, Vol. 1(1):69, 72
Wetlands, transportation’s effects on, Vol. 2(1):48–50, 57
Wisconsin
impacts of bypasses on communities, Vol. 5(1):58
truck trips, Vol. 3(1):53–67
truck flows, Vol. 1(1):69, 72
Wyoming, truck flows, Vol. 1(1):68m 69, 72

Z
Zoning, parking management, Vol. 2(1):93–107
